This information was accessed on April 9, 2010 from the database titled *2008 Final Database* on the California Office of Statewide Health Planning and Development web site. Ninety-nine facilities reported cesarean rates in excess of the national average of 32.3% in based on the preliminary data for 2008.

California's cesarean rate has risen steadily since the mid-1990s, when the state rate was 20.6%.
